# Ijaz Ahmed

**Full Stack Developer**

GitHub | LinkedIn | LeetCode

ijazahmed5432100@gmail.com | +91 9895582131

## Profile Summary

**Full Stack Developer** with hands-on experience building scalable, production-ready web applications from frontend to backend. Proficient in **React**, **Django**, **Django REST Framework (DRF)**, **FastAPI**, **Python**, and **PostgreSQL**, with strong exposure to clean architecture, RESTful API design, authentication flows, real-time systems, and payment integrations. Skilled in building AI-powered platforms, real-time user workflows, and end-to-end project development. Experienced in deploying cloud-native applications on **AWS** using Docker. Solid foundation in **Data Structures** and end-to-end system design.

## Skills

| | |
|---|---|
| **Languages** | Python, JavaScript, Java, C |
| **Frontend** | React, HTML5, Tailwind CSS, Bootstrap, Zustand, Redux Toolkit |
| **Backend** | Django, Django REST Framework (DRF), REST APIs, FastAPI, Authentication, JWT |
| **Databases & Storage** | MongoDB, PostgreSQL, Cloudinary, AWS S3, Firebase, Supabase |
| **Database Concepts** | Indexing, Aggregation Pipelines, Transactions, Schema Design |
| **API & Security** | RESTful Design, Access & Refresh Tokens, Webhooks |
| **Integrations & Real-Time** | Socket.IO, Razorpay, Stripe, Google OAuth, Facebook OAuth |
| **Cloud & DevOps** | AWS EC2, NGINX, Docker, GitHub Actions, Render, Vercel |
| **Testing** | Django Test Framework, DRF APITestCase, API Testing (Postman) |
| **Core Concepts** | Authentication Flows, Role-Based Access Control, Pagination, Rate Limiting, Caching Basics, Error Handling, Debugging |
| **Architecture** | Repository Pattern, MVT, SOLID, OOP |
| **Familiar with** | AI Integrations, n8n, Node.js, TypeScript, React Native |
| **Version Control** | Git, GitHub |

## Professional Projects

**Intraview — AI Mock Interview & Skill Assessment Platform** Live — GitHub

A full-stack interview platform featuring AI-powered interviews, real-time video sessions, and intelligent interview evaluation.

- Developed a full-stack platform using **React.js (Vite)**, **Django REST Framework**, **PostgreSQL**, **Redis**, and **Celery**, with **Docker** and **GitHub Actions CI/CD**.
- Engineered real-time AI interviews using **LiveKit** and **Tavus AI avatars**, integrating **Google Gemini** for interview evaluation, **Deepgram** for speech recognition, and **Cartesia** for voice generation.
- Built a fault-tolerant **LiveKit AI agent** with custom runtime state management, ownership leasing, turn management, and reconnection handling.
- Implemented human video interviews using **ZEGOCLOUD**, real-time notifications with **Django Channels WebSockets**, and secure authentication with OTP, JWT, Google OAuth, and role-based access control (RBAC).
- Integrated **Stripe** payments and subscriptions, alongside a transactional token economy, capacity-controlled booking, and automated refunds using database transactions and row-level locking.

**Jamilah — E-Commerce Platform** Live — GitHub

A full-stack e-commerce application built with Django and PostgreSQL for online shopping and order management.

- Developed core shopping features, including product catalog, filtering, cart, wishlist, coupons, checkout, and order tracking.

- Integrated **Razorpay** payments and implemented authentication, user profiles, wallet functionality, and order management.
- Built an administrative dashboard for inventory, products, customers, offers, and sales, and deployed the application on **AWS**.

## Mini Projects

**AI Story Generator API** Live — GitHub

A Python-based REST API built with FastAPI for creating and managing fictional characters and generating AI-powered stories. Integrated Supabase for database operations and Gemini API for contextual story generation, with structured validation, error handling, and modular backend architecture.

## Education

**Brocamp (Brototype) — Python FUll Stack Stack Development** *2024 – Present*

**Bachelor of English Literature (BA English)** *2021 – 2024*
University of Kerala, Thiruvananthapuram
